

13 March 1973

MEMORANDUM FOR: Mr. Fitts

Nate,

1. This morning I asked [] to prepare a memo or letter--in plain English--that we can consider sending out to selected people which will follow our presentation of requirements at an early IRAC session. My thought is to assign [] to chair a working group--sponsored by IRAC-- with representatives from each of the major programs to define the next steps the DCI might take to develop a management information system responsive to his stewardship needs. I would hope that this group will also focus on:

- programs structure in a broader sense
- currency of target data
- form which ad hoc calls for evaluative data can be developed and responsive.

2. [] is drafting a scenario for IRAC which I will forward to [] in the course of the week. Marty's task is the follow-up (on the presumption DCI will go this way with IRAC). With the formation of this group, the [] committee will be discontinued.

John M. Clarke
